The above packages and prices are on a “dry hire” basis (unless otherwise mentioned). This means that you pick up the kit, use it and return it to us at the end of your hire period. For an additional charge we can deliver and setup the equipment, leaving you to operate it during the event. We then return at the end of the event to pack down and take it away. This is charged at £150 including delivery and collection within London (Zones 1-5). If you require a full “wet hire” service where we stay and operate the equipment then please get in touch via email to discuss your needs. Please note that exceptions may apply to any service. Contact us for more details

If something does not appear on the list, contact us for a bespoke quotation. If we can't provide something you require, chances are we can acquire it from one of our network partners. All packages can be tailored to meet your requirements within reason.

Unless otherwise stated, all prices are in £GBP (no VAT) per individual item. All customers are required to bring two forms of photographic identification and are subject to a credit check and agree to our terms and conditions of hire. An up-to-date copy of these is provided with each booking. Please note that a refundable deposit of 25% will be applied to every dry hire.
